

24 March 2011

Wood volunteers and handymen and women are wanted URGENTLY to help refurbish the window frames and sills at Northwood House which have had serious neglect over many years. Many need sanding down, filling and priming now that the drier weather has come and it is pleasant to work outside. In a very short space of time a dramatic improvement can be made.

We have made a start scraping off the flaking paint on the columns on the East side outside the Drawing (Medina) Room and also at the Rotunda Main entrance to the House. With some more willing volunteers who can spare an hour or two during the week – any time between 9am and 4pm - the external appearance can be improved very quickly. Many hands make light work!

Volunteers have been fantastic in repainting and cleaning all the main function rooms and corridors so there is a freshness about the place. Events have occurred and more are being booked as the House is 'Open for business'. If you would like to help save this priceless asset in Cowes come along or better still send an email to trustees@northwoodhouse.org or call 282551 or 293642 if you can offer us some help as funds prevent us from paying for professional services. Every bit or every hour you can spare will help enormously and be most welcome.
